SESSION COURTESY
As a courtesy to all attendees, please refrain from using your cell phone while in sessions. We realize this is sometimes difficult, but ringing phones, or people talking on them, can be extremely disruptive to other attendees and also discourteous to our speakers. If you must use your phone, please step outside the room. Thank you.

CCAP ACADEMY FOR EXCELLENCE IN COUNTY GOVERNMENT
You will see the Academy “icon” next to several breakout sessions throughout this program. This denotes an elective credit available for all current and future Academy participants. We encourage everyone to complete the attendance forms distributed by the Academy session monitors. Even if you are not a participant right now, but you think you would like to pursue this great opportunity later on, your attendance now will be applied to your future enrollment.

COMPLIANCE WITH ADA
CCAP’s policy is to hold meetings only at facilities that are barrier-free. In accordance with Title III of the Americans With Disabilities Act, we invite all registrants to advise us of any special requests for accommodations for any disability-related needs. Please submit your request to CCAP staff as soon as possible.
CCAP offers opportunities for participation in the CCAP Academy for Excellence in County Government (“Academy”) program and the CCAP Center for Excellence in County Government (CEL) Program on a regular basis.

The Academy is a multi-year certificate training program that provides eight core/required courses and a vast array of elective courses covering many facets of county government including financial management, personnel and labor relations, risk management, legal issues, and more. Applications are accepted on a rolling basis and graduation is held every four years for those that fulfill the program requirements.

The CEL program is offered annually as a two and a half day intensive training focused on improving participants’ communication, management and leadership skills with small group dynamics and a high level of interactivity and personal challenges.

To explore either of these educational opportunities, please visit www.pacounties.org or contact Mandi Glantz at (717) 736-4739 or email mglantz@pacounties.org.

TICKETS
Tickets are needed for Monday’s Conference luncheon and will be collected by your server. All registered attendees received tickets at the registration desk; additional tickets may be purchased for $50.

SPEAKERS
CCAP Conference planning begins with an overview of submissions received from various sources. Topics are suggested by CCAP officers, committees, vendors and staff, and are also taken from prior Conference evaluation forms. After the subject matter is finalized, staff obtains speakers qualified to present information on the subject. This process is not related to acquiring Conference sponsors.

CCAP makes every effort to obtain speakers and plan sessions as presented in the Conference promotional flyers. In some cases, events require changes to subject matter or the schedule. All presentations by Conference speakers, with the exception of those by CCAP staff, are the opinions of the speakers and do not necessarily represent the official position of CCAP.

Telemedicine for Psychiatry
Leland Room, Second Floor
Providing psychiatric services to inmates is a growing challenge for county prisons. This breakout will review Mifflin County’s experience over the last two years with this process through InSight, LLC including choosing a doctor, medicine prescribing practices, the inmates’ reception to the program, and cost savings. CCAP’s Prison Inmate Medical Cost Containment program (PIMCC) has entered into a contract with InSight to provide services via live video conferencing. We will also review current statistics of inmates who have mental health issues and the availability of psychiatrists to provide services in the prison.

New STOPit Program
York Room, Second Floor
CCAP’s PCoRP and PComp programs have partnered with STOPit to provide pool members with a proven solution that deters inappropriate behavior and gives employees a safe, anonymous way to share information through a mobile and web based app. This allows your county or county related entity to implement the STOPit app and 24 hour employee hotline as a value added service at no charge! STOPit aligns with how employees communicate today. Our goal is to help you identify and prevent embezzlement, workers’ compensation fraud and HR liability issues. If you are not a member of PCoRP or PComp, your county could purchase this service directly from STOPit.

STOPit is the leading technology company providing software and services that mitigate, deter and control inappropriate conduct. Individuals report specific issues and administrators review, respond and manage the concerns through a modern communication platform. For more information see the PCoRP and PComp page on the STOPit website: https://stopitsolutions.com/pcorp-pcomp/.

Continuity Planning for Elections
Lebanon Room, Second Floor
What could go wrong on election day you might ask? Unfortunately, many unplanned events can occur on the day before or day of an election. The judge of elections could have a medical emergency, or there could be a tornado or flooding that makes the polling location inaccessible. Apart from those examples, there could be a cyber or technology incident. All of these situations require a well thought out continuity plan that is tested and revised on a regular basis. Learn about best practices for elections continuity planning and how to take steps to develop or improve on such a plan.

The New Civil Service System - Understanding the Effort to Modernize
Leland Room, Second Floor
The Civil Service System has been the subject of great frustration for counties seeking to fill positions with qualified staff. Recent legislation transferred duties to the Commonwealth of Pennsylvania Office of Administration, and the transition is underway to what is expected to be a customer-friendly process. This session will focus on the transition efforts, changes made recently to move away from testing to experience for evaluating potential staff, and upcoming modernization and customer focus changes that are on the horizon.

V. Reid Walsh, Executive Deputy Secretary, Office of Administration and Deputy Secretary for Human Resources and Management
Michael Sullivan, Director, Bureau of Talent Acquisition, Office of Administration Talent Management Office

Public Relations Guidelines for Reassessment
York Room, Second Floor
Effective public relations and information is a critical factor in a successful reassessment. A proactive public relations program can enhance relationships with the public and other stakeholders and aid the assessment office and other county officials in providing courteous, accurate and thorough information to various constituencies. The strongest opinions—positive or negative—about the assessment office are formed by the words and actions of its employees.

To this end, the Assessors’ Association of Pennsylvania (AAP), with input from the Local Government Commission and CCAP, wrote the Assessment Office Public Relations: Building a Spirit of Cooperation and Understanding with the Public document.

This session will cover the main points of an effective public relations plan and assist attendees in beginning to craft their county’s own plan.

SPEAKERS:
Deborah Crawford, CPE, Chief Assessor/Tax Claim Director, Tioga County and President, AAP
Joshua Zeyn, CPE, Assistant Chief Assessor, Tioga County and Co-Chair, Assessment Law Committee, AAP

Reinvigorating Civic Engagement

Lebanon Room, Second Floor

Communities are about people coming together for common purposes. Healthy and vibrant communities necessarily require active involvement by the people, not just in deciding civic matters but in contributing time and talent to the provision of services. Yet many of our most important services find it increasingly difficult to get and keep those hands-on volunteers. The panel will discuss strategies to reinvigorate civic engagement, including volunteer fire and EMS services, elections and, in the broadest context,
building a public understanding of government services and the need for community participation.
