

### Participating Counties – Local Registration Fee Enactment

Act 89 of 2013, which became law in November 2013, provided a measure to allow local generation of transportation funding for counties by permitting counties the option to assess a \$5 fee on vehicles registered in the county. The fee is to be levied by ordinance, and the county is required to notify PennDOT a minimum of 90 days before the effective date of the ordinance. Collection of the fee begins in the month the ordinance is effective for expiring registrations, and applies to new registrations on or after the effective date of the ordinance. PennDOT is to collect the fee at the time of vehicle registration or renewal, and the full amount is remitted back to the county that enacted the fee. The funds generated by the fee may be used by the county in any way that Liquid Fuels monies may be expended through the County Liquid Fuels Tax Fund under Title 75, Section 1910(c) of the Pennsylvania Vehicle Code. Listed are the effective dates for counties that have enacted an ordinance implementing the \$5 local registration fee, along with a detailed map highlighting those counties in the commonwealth.
